

STARFIBER 100/200/400/600

THE FIBER LASER FOR FINE WELDING, CUTTING AND DRILLING

ROFIN's StarFiber, a robust and compact fiber laser source, satisfies all criteria for optimized industrial laser material processing.

For laser joining, the StarFiber allows very small seam geometries at very high welding speeds. The welded joints show maximum strength with minimal heat input to the workpieces.

Laser fine cutting and drilling with StarFiber results in clean cuts with low heat affected zones and high edge qualities.

Features

- 100 – 600 W
- Analogue power control
- High efficiency
- Smallest spot size
- Safety features (industrial standard)
- Convenient operator control
- Innovative ROFIN control unit (RCU)
- ROFIN SmartWeld™ technology for optimized welding properties
- Wide range of ROFIN application packages for fine cutting, welding and drilling
